Project Name	EV Industry Analytics & Intelligence Platform
Maximum Marks	5 Marks

Creating an effective dashboard involves thoughtful design to ensure that the presented information is clear, relevant, and easily understandable for the intended audience. Here are some key principles and best practices for dashboard design

Activity 1: Interactive and visually appealing dashboards

Creating interactive and visually appealing dashboards involves a combination of thoughtful design, effective use of visual elements, and the incorporation of interactive features. Here are some tips to help you design dashboards that are both visually appealing and engaging for users so take care of below points

- Clear and Intuitive Layout
- Use Appropriate Visualizations
- Colour and Theming
- Interactive Filters and Slicers
- Drill-Down Capabilities
- Responsive Design
- Custom Visuals and Icons
- Use of Infographics

Note: Highlight the major outcomes in form of bullet points

- **KPI Overview:** The platform tracks 35.8M units delivered, $1.47T gross revenue, an average range of 406.2 km, a satisfaction score of 4.21/5 and 6,359.1 MT of CO2 displaced.
- **Category Leaders:** SUVs contribute 45%+ of global EV revenue ($660B+), while entry-level Two-Wheelers lead unit volume in developing economies.
- **Battery & OEM Strategy:** Automakers using a dual-chemistry strategy (LFP + NMC) get the lowest price per km ($85-$95/km); Solid-State is a key advantage for luxury brands.
- **Regional Concentration:** China leads vehicle assembly and battery cell production with 54%+ of volume, followed by Europe and the United States.
- **Sustainability Impact:** Electric buses and heavy trucks deliver 5.4x more annual CO2 abatement per kWh than sedans; satisfaction depends mainly on charging reliability.

Sample:

Here are five potential outcomes from the dashboard image provided:

- **Customer Count and Sales Overview**:The dashboard reports a total of 9,994 customers, with cumulative sales of 2.30M, a profit of 286.40K, and revenue of 11.49M. These figures highlight the overall scale and profitability of the store's operations.
- **Highest Sales**: Copiers and Machines are the top-selling products, with sales values of 2.199M and 1.646M, respectively. This suggests strong demand or high price points for these products.
- **Peak Month**: December has the highest monthly sales at 352.46K, likely due to holiday shopping.
- **Seasonal Sales Growth**:The monthly sales chart shows growth in specific months, such as March, September, October, and December, likely influenced by seasonal factors and sales events.
- **Sales Distribution Across Segments**: The **Consumer segment** leads with 0.41M in sales, followed by Corporate at 0.25M, and Home Office at the lowest
