Project Development Phase
Story

Date	23 October 2026
Team ID	0157CY241012
Project Name	Electric Vehicle (EV) Industry Analytics and Market Intelligence
Maximum Marks	5 Marks

By using stories in Tableau, you can effectively communicate complex data in a way that is both interactive and engaging, making it easier for the audience to follow along and understand the insights. It's a tool for data storytelling, allowing you to present insights in a cohesive, engaging way that takes viewers through a logical progression of findings or analyses.

In Tableau, Story is a feature that allows you to create a sequence of dashboards, visualizations, and text to present data insights in a cohesive and narrative-driven way. It's like a slideshow within Tableau that guides the audience through a series of data points, helping them understand key insights, trends, or outcomes of your analysis.

EV Market Analysis - Narrative Story Points and Observations:
1. OEM Global Market Leadership: Tesla (27.4%) and BYD (21.2%) lead global EV market adoption, followed by Volkswagen Group (11.8%) and BMW (8.6%). Together, top OEMs account for over 68% of commercial sales volume.
2. Battery Chemistry Economics: LFP (Lithium Iron Phosphate) delivers the lowest price-per-km ratio ($74/km) making it ideal for urban commuter fleets, whereas Solid-State and NMC chemistries dominate high-performance vehicles exceeding 700 km range.
3. Body Category Market Share: Electric SUVs represent the largest consumer segment by volume (42%) and generate the highest gross profit margin, followed by Sedans (28%) and Hatchbacks (16%).
4. Commercial Fleet Environmental Abatement: Commercial electric buses and heavy-duty trucks yield 3.8x greater annual CO2 displacement per vehicle compared to passenger sedans, proving vital for municipal zero-emission targets.
5. Efficiency and Charging Velocity Correlation: Aerodynamic hatchbacks and sedans lead energy efficiency (<145 Wh/km), while 800V silicon-carbide architectures reduce DC fast-charge downtime by 55% across 2024-2026 models.
